

ISTE240

Exercise - 03

Menu & Forms

DUE Check MyCourses – must be uploaded to banjo.rit.edu & linked from your ISTE-240 class page (Ex01)

Objective: To practice creating a menu and form elements in HTML5 and to create a style sheet that satisfies some of the modern style techniques.

Directions: Create one webpage as shown in the image below and a css file to style the page accordingly.

A Web Page

← → ↻ ☰

 [Home](#) | [Activities](#) | [Food](#) | [Rest](#) | [People](#) | [Feedback](#) ...

Please tell us about your visit:

How many in your group?

When did you Visit? 

Favorite Place

- ☐ Baseball Field
- ☐ Museum
- ☐ Luigis Italian Restauran
- ☐ Mom's Hotel
- ☐ The Youth Hostel

Overall Rate your visit to our small town:

Grading Rubric for Exercise 4 – menu and form

Logo to the left of the menu	2
Horizontal menu with 6 items as shown	2
Text (Please tell...) and horizontal rule <hr/>	2
HTML 'form' tag	2
Text and HTML input tag with type of 'number'	2
Text and HTML input tag with type of 'date'	2
HTML tag 'fieldset' with appropriate text	2
Radio button group inside field set with appropriate text	2
Text and HTML input tag with type of 'range'	2
HTML input tag with submit that when clicked sends all information to this page**	2
Points deducted for poor style, no comments, late submission, no assesme folder, no link to exercise from MyCourses, etc.	
Total	20

Remember to always document your code. Your name, date, and a brief description of the page in the comments.

**Submit should bring the user back to this same page but all of the information from the form should show in the url bar – something like:

- ex03.html?howMany=2&whenVisit=2020-06-11&...
- don't worry if strange characters show up (like a plus sign or %26 – we will talk about that soon!)
